"Our Master Salesman"
Has Been, and Always Will Be
"QUALITY AND SERVICE"

*You won't have to sell—
It will sell itself.*

We Will
Appreciate Your Visit

Come and see how we grow good
Nursery Stock and Roses. You
will enjoy it.

*If you have not received or have
lost our Rose List, please ask for it.*

Dear Fellow Nurseryman:

We wish to thank those who favored us with part or all of their business during the past seasons.

We hope you can come out and see the fine stock we have to offer for the coming season.

If we do not call on you at the right time we will appreciate hearing about your requirements at your earliest convenience. Rest assured your confidence will be appreciated by giving you our very best in quality and service.

Since 1890 the Senior and Junior Klyns, with the help of faithful employees, have devoted their efforts both abroad and in America, to giving their customers what they expect, as far as is humanly possible.

Buying Roses and Nursery Stock is a matter of confidence. Buy from a reliable grower.

Gratefully yours,

GERARD K. KLYN, INC.

Gerard K. Klyn, President

WHOLESALE PRICE LIST

For members of the trade only.

Described in the following pages is a listing of our superior quality nursery stock reflecting over forty years of conscientious and intense effort to produce what we feel is the ultimate in landscape and garden center material. Our most sincere desire is to give prompt, reliable and consistent service to wholesalers and retailers regardless of location.

Due to the ever increasing demand for our stock we recently purchased an additional two hundred and ten acres of excellent land in Lake County. One hundred acres have already been tilled and planted with heavy liners and, in the not too distant future, finished material will be moving from this newest section to our customers for resale.

Our program of propagation, planting and subsequent care of stock, from the cutting, seedling, layer or graft to the finished product insures you that each piece is healthy, uniform as to grade, generous in size, and with the desired root system necessary for safe transplanting.

Your visit to inspect any or all of the stock offered will not only prove interesting and, we hope, beneficial but be a great pleasure for us.

OFFICE HOURS

Monday through Friday ----- 8:00 a.m. - 5:00 p.m.

Saturday - except as below 8:00 a.m. - 12:00 noon

Saturday, March 15 to Decoration Day
8:00 a.m. - 4:00 p.m.

Telephone BLackburn 5-3471

TERMS AND CONDITIONS OF SALE

TERMS: Open account purchases will be made only to those with established credit. NEW CUSTOMERS who wish to open an account should furnish several trade references and allow sufficient time for their investigation before shipping date. If time does not permit this, local references easily reached by telephone, are necessary. Otherwise order must be accompanied by at least a 25% deposit guarantee and satisfactory arrangements completed for the balance before shipment is made. C. O. D. shipments or pick-up delivery on that basis also require a 25% deposit to insure acceptance of the order when ready. Interest will be automatically charged at the rate of 6% per annum, computed monthly, on all past due accounts.

PRICES: All prices quoted are F.O.B. the nursery, Mentor, Ohio, and are subject to change without notice except in the case of orders already booked and acknowledged in which case the original figure, if lower, will apply. Boxes, bailing or material of any sort needed to insure safe delivery will be charged at cost.

QUANTITY PRICES:

Nursery Stock Only

10-24 pcs. one variety -----	10 rate
25-299 pcs. one variety -----	100 rate
300 or more pcs. one variety -----	1000 rate
Less than 10 of one variety add 10 % to 10 rate.	

CERTIFICATION OF STOCK: All stock for sale in any current season is inspected and approved by the U.S. Dept. of Agriculture and the State Dept. of Agriculture and may be shipped to any part of the Nation.

CLAIMS: All orders acknowledged by us are accepted subject to crop yield and or any loss over which we have no control. "Last minute" telephone, telegraph and mail order requests cannot be given preference over orders already booked and delivery schedule arranged. In case of error in labeling we reserve the right to replace such stock as may be untrue to name and in any event we are not liable for any amount in excess of the purchase price.

REPORTS OF NURSERY STOCK

Received in an unsatisfactory condition or grade should be made immediately upon receipt of such material. No claims will be considered unless reported within 10 days after receipt of merchandise.

SHIPPING: Several reliable local truckers have available a fleet of dependable trucks for delivery of your nursery stock requirements at reasonable rates in either solid or split load quantities. Combination loads can generally be arranged especially if your order is received prior to shipping season. Generally speaking balled material cannot be shipped via regular commercial motor or rail freight in less than truck or car load lots due to the necessary costs involved for boxing or crating to insure safe delivery.

ALL GOODS TRAVEL AT THE PURCHASERS' RISK AND EXPENSE. All stock is in excellent condition when it leaves our nursery.

IF GOODS ARE DAMAGED IN ANY WAY, IN TRANSIT, CLAIM SHOULD BE MADE AT ONCE TO THE CARRIER AND WE SHOULD BE ADVISED AT THE SAME TIME.

ADVANCE NOTICE: Reasonable time should be allowed for preparation of all pick-up orders and your cooperation in completing delivery on schedule will be appreciated.

NEW INTRODUCTION

AZALEA DESIREE'

(Plant Patent No. 2068)

The Azalea that has it! Is compact and vigorous with a uniform growing habit, will attain growth of 2 feet in height and width in 10 years. Is enriched with an abundance of attractive, large olive-green foliage. Its Lily-of-the-Valley-white, large flowers are artistically frilled at edges accenting charm and glamour of an aristocrat. Comes in bloom about May 20th, is plant hardy to 20 degrees below zero. Flower buds endured 12 degrees below zero without damage. The combined virtues of growth habit, unusually attractive flower, and extreme hardiness, make it the outstanding hardy white evergreen Azalea of our time.

Prices of AZALEA DESIREE'

*The Story
of these Beautiful
New Hardy*

HYBRID RHODODENDRONS

These beautiful new Rhododendron hybrids were inspired by constant demand for large leaved, early blooming plants in pink and red colors, for later blooming plants in dwarf pinks, dwarf reds, and tall growers exhibiting good plant characteristics, in clear pink, red and white colors. Through luck and patience we have succeeded in creating these new, much-desired plants and colors. After several years of rigid testing we have selected, as worthy of introduction, plants which meet the highest standards of vigor, color, and hardiness. These rare new hybrids furnish continuity of bloom from early to late May in unusual, hitherto unavailable colors and plant characteristics.

Our list presents more than a dozen varieties to allow you to choose the proper plant for location, color and time of bloom. Hardiness and blooming time are based on weather conditions and heavy soil prevalent in the Cleveland Heights, Ohio area, ten miles south of Lake Erie.

Requests and restricted number of plants available makes it regretfully necessary to limit orders to three plants of a variety per customer, larger quantities of Rhododendron, Belle Heller, allow us to offer five plants to each customer.

We recommend that you call for plants at our nursery. Orders shipped by express, in order to properly fit the shipping crate, must be in quantities of 8 plants of 9- to 12-inch size; or of three plants of 12- to 15-inch size; or of three plants of 15- to 18-inch size.

**A QUARTER CENTURY OF HYBRIDIZING FROM
THOUSANDS OF SEEDLINGS, ATTAINED A NEW
RACE OF SUPERLATIVE HYBRIDS WHICH WILL
SET A NEW STANDARD OF EXCELLENCE.**

SPRING GLORY

A dwarf, compact plant with large, shiny foliage. Truss is of globular form, artistically arranged. Flowers are light rosy pink with a large, crimson-red blotch. Comes into bloom about May 5th, is bud hardy to sub-zero temperature, at unexposed locations. As its name implies, this aristocratic plant ushers in the glories of spring by its early bloom.

CHEER

A compact, medium-dwarf size plant with generous foliage. Truss is globular, well arranged by light shell-pink flowers with a conspicuous scarlet-red blotch, which adds intense brilliance to each flower. Comes into bloom about May 5th, is bud hardy to sub-zero temperature, at unexposed locations. Plant habit, flower brilliance and early bloom combine in this plant to make a cheerful show piece.

ELIE

A plant of medium height, compact, with lustrous dark green foliage. Truss is of tight, globular form. Flowers are vibrant deep pink, accented by a cerise-red blotch. Comes into bloom about May 10th, is bud hardy to sub-zero temperature, at unexposed locations. This plant's good qualities of character, foliage and flower place it in a class by itself.

HOLDEN

A dwarf, compact plant with lustrous, dark green foliage. Truss is of globular form. Flowers are a rosy red with a small, darker red blotch illuminating the floret. Comes into bloom about May 20th, is bud hardy to sub-zero temperature, at unexposed locations. Its good character, early bloom and color lends illumination to plants of lighter hues, blooming at the same time.

ROCKET

A sturdy, upright, dense grower of medium height with an abundance of thick, rounded, excellent foliage. Truss is a very tightly arranged, globular form. Flowers are a deep radiant coral-pink—slightly ruffled. A scarlet-red blotch points up the vibrancy of the pink. Plant blooms about May 20th, is bud hardy to sub-zero temperature, at unexposed locations. Robust character of growth, profuse foliage and its unusual coral-pink hue makes this hybrid a most desirable plant.

LAVENDER QUEEN

A vigorous and bushy grower with lustrous dark green foliage, truss is tight, of globular form. Flowers are a light bluish lavender, slightly ruffled with a faint brown blotch. Comes into bloom about May 20th, is bud hardy to 20° below zero. Its excellent growth habit, exceptionally good foliage and extreme hardiness makes this a very desirable plant.

PRIZE

A vigorous, dwarf grower with good foliage. Truss is of globular form, well arranged. Flowers are a delicate shrimp-pink, complemented by a light yellowish brown blotch. Comes into bloom about May 20th, is bud hardy to 20° below zero. Here's a very showy plant exhibiting unusual color contrast plus good growing qualities.

PINK CAMEO

A sturdy, dwarf grower with excellent foliage. Truss is globular and well formed. Flowers are light flesh-pink, illuminated by a pinkish yellow blotch. Blooms about May 20th, is bud hardy to 20° below zero. Good qualities of growth and foliage, augmented by its lively pastel pink flowers create here an unusually desirable plant.

TONY

A sturdy, dwarf, compact grower with attractive, leathery foliage, slightly crinkled. Truss is globular, well formed, flowers are a bright cherry-red, comes into bloom about May 20th, is bud hardy to about 20° below zero. The combination of dwarf form and bright red flowers accents a new conception long desired.

BELLE HELLER

A vigorous, tall grower of good width proportion and abundant, large, dark green foliage. Its enormous truss is of globular form consisting of large, glistening white flowers with a conspicuous golden yellow blotch. Comes into bloom about May 25th, is bud hardy to sub-zero temperature, at unexposed locations. Stability of plant, profuse foliage, and cascades of flowers blend in this hybrid for truly majestic attraction.

PINNACLE

A well formed plant of medium height and good foliage. Truss is a near-perfect cone. Flower is glowing pure pink accented by a delicate citron-yellow blotch. Comes into bloom about May 25th, is bud hardy to 20° below zero. Here, plant habit, foliage, exceptionally well formed truss, and clean clear pink color unify for aristocratic elegance.

THE GENERAL

Compact, medium height plant with excellent, dark green foliage. Truss is globular and well formed; of brilliant, crimson-red flowers with a dark red blotch. Comes into bloom about May 25th, is bud hardy to 20° below zero. The striking attraction of its dazzling velvety red flowers makes this an outstanding, colorful plant.

SPRING DAWN

A tall, vigorous and bushy grower. Grows as wide as high with numerous branches, tangenting in all directions, well covered with good, large pea-green foliage. Truss is of globular form, flowers are rosy pink accented by a showy, golden yellow blotch. Comes into bloom about May 25th, is bud hardy to 20° below zero. Magnificent growth character, extreme hardiness and good pink color make this plant ideal for generous mass plantings.

KING TUT

A Smirnowi hybrid of medium dwarf size, bushy, with pea-green foliage. Truss is larger than average and beautifully semi-conical with flowers in contrasts of deep and light shades of pink. Blotch is slight and yellowish brown. Comes into bloom about May 30th. is bud hardy lower than 20° below zero. Virtues of plant habit, flower and extreme hardiness combine in this hybrid to form a masterpiece.

AZALEA, DESIREE'

(Plant Patent No. 2068)

The Azalea that has it. Is compact and vigorous with a uniform growing habit, will attain growth of 2 feet in height and width in 10 years. Is enriched with an abundance of attractive, large, olive-green foliage. Its Lily-of-the-Valley-white, large flowers are artistically frilled at edges accenting charm and glamour of an aristocrat. Comes in bloom about May 20th, is plant hardy to 20° below zero. Flower buds endured 12° below zero without damage. The combined virtues of growth habit, unusually attractive flower, and extreme hardiness, make it the outstanding hardy white evergreen Azalea of our time.

ILEX, GREEN PYGMY

(Plant Patent No. 2069)

Is dwarf and compact with numerous short, upright branches of uniform growth, attaining a height and width of 12 to 15 inches within 10 years. Its foliage is convex, light olive-green with texture similar to Boxwood. Is plant hardy, comparable to parent, Ilex Cr. Convexa. Its dwarf and uniform character of growth, requiring the minimum of trimming to make it a unique dwarf evergreen hedge plant, long desired, is now a reality.

LERIO NURSERICANS

KEIDING ART POTS

KLYN'S SUPER POTS

We are an accredited distributor for Lerio Nursericans, Keiding Art Pots and now manufacture our own complete line of Klyn Super Asphalt Pots. The former are metal cans of three sizes painted green with a push out bottom and one size of solid bottom cans painted aluminum carrying prices as shown below. The Keiding pots are of heavy pressed and molded paper and are available in a number of sizes. They are in test at our own nursery but claims for their usefulness as containers for potted shrubs, trees, roses, etc., vary from six to ten months on top of the ground. Asphalt pots are of comparable grade to several other types now available.

Nurserican Prices
